Personal Profile

AWS cloud practitioner with -1 year experience configuring EC2 instances, VPC, implementing IAM policies , managing user accounts, monitoring uptime and performance .

Work Experience

AWS CLOUD PRACTITIONER TRAINEE - AWS RESTART PROGRAM

MAY 2024 - AUGUST 2024

- Amazon VPC (virtual private cloud): configured and managed VPCs, subnets, internet gateways, NATs, and route tables on AWS
- Network Security: Ensured system and network security, monitoring and performance using CloudWatch
- Infrastructure Automation: Implemented automated cloud infrastructure deployment, resulting in reduction of deployment time and increased resource provisioning efficiency
- Amazon S3 (Simple Storage Service): Gained proficiency in setting up and managing S3 buckets, configuring bucket policies, and using S3 for scalable and secure object storage solutions.
- Amazon RDS (Relational Database Service): Gained expertise in deploying, managing, and scaling cloud-based relational databases. Completed hands-on labs focused on database backups, snapshots, and implementing security configurations.
- Amazon EC2 (Elastic Compute Cloud): Worked on configuring EC2 instances. Practised deploying, configuring, and managing EC2 instances, including creating security groups, key pairs, and setting up load balancers to ensure high availability.

DEVSECOPS SECURITY TRAINEE – Cyber Girls Fellowship

MARCH 2023 - AUGUST 2023

- Containerization Security: Developed skills in securing containerized environments using tools like Docker and Kubernetes.
- **Programming:** Practised secure coding techniques with programming languages such as PHP and Pvthon.
- **Database Monitoring:**Applied security monitoring measures to protect databases and enhance overall system security.
- **Teamwork:** Collaborated with development teams to integrate security practices into development processes
- Compliance: Automated security testing and compliance checks

Education Qualification

Technical Skills

PROGRAMMING LANGUAGES.

- Python.
- Bash
- PHP

AWS CLOUD COMPUTING

- Scripting using Linux **Amazon** EC2.
- cloud computing best practices
- proficiency in cloud formation
- Cost-saving strategies for cloud services
- Ability to identify and resolve performance

bottlenecks

DATABASES

- MySQL
- Amazon Aurora.
- Amazon Dynamo Db

Soft Skills

- Skill in executing projects with precision and attention to detail to improve overall work quality.
- Proficient in simplifying complex technical information for non-technical audiences.
- **Excellent written and verbal communication skills for effective reporting and documentation.**
- Skilled in collaborating with cross-functional teams and adapting to a fast-paced, dynamic environment.
- Capacity for critical thinking and problem analysis to develop effective solutions
- Capable of working under tight deadlines to deliver precise and timely results.

Professional Qualifications

☐ AWS CERTIFIED CLOUD PRACTITIONER

AMAZON WEB SERVICES

CERTIFICATE OF COMPLETION DEVSECOPS

PRACTICAL DEVSECOPS
